#### **Discussion:**

The California Elections Code requires the City Council to order the General Municipal Election and request the Stanislaus County Board of Supervisors to approve the consolidation of the City's Election with the Statewide General Election being held on Tuesday, November 5, 2024.

California Elections Code §10403.5 requires the Board of Supervisors to approve the request for consolidation of the election.

A notice announcing the 2024 General Municipal Election and the Offices to be filled will be published in the Hughson Chronicle on July 9, 2024. The Candidate Nomination Period will begin July 15, 2024, and will close on August 9, 2024. During this time, candidate

packets will be available for any interested party seeking to run for an office. Candidates must be a registered voter in Stanislaus County and live within the city limits to be eligible to run for office. If an eligible incumbent does not file for his/her office, the nomination period for that specific office will be extended to Wednesday, August 14, 2024, at 5:00 pm for anyone other than the incumbent.

The Offices scheduled for the November 5, 2024, General Municipal Election are as follows:

## CITY COUNCIL AGENDA ITEM NO. 3.4

### SECTION 3: CONSENT CALENDAR

**Meeting Date:** April 22, 2024  
**Subject:** Adoption of Resolution No. 2024-12, Performing the Biennial Review of the City of Hughson's Conflict of Interest Code  
**Enclosure:** Exhibit "A" Conflict of Interest Code  
**Presented By:** Ashton Gose, City Clerk

---

#### Staff Recommendation:

Adopt Resolution No. 2024-12, amending the City of Hughson Conflict of Interest Code.

#### Discussion:

The Political Reform Act (Government Code Sections 81000-91014) requires every local governmental agency to review its Conflict-of-Interest Code biennially. A notice must be submitted to the reviewing body indicating whether an amendment is necessary. The code reviewing body for the City of Hughson is the City Council. The Political Reform Act requires governmental officials and certain employees to publicly disclose their personal assets and income. They are also restricted from participating in decisions which may affect their personal economic interests. The Fair Political Practices Commission (FPPC) is the state agency responsible for issuing the State of Economic Interest, Form 700, and for interpreting the law's provisions. Form 700 is the document those subject to the Conflict-of-Interest Code are required to fill out annually and identify their financial interests.

Persons holding the position of Mayor, City Councilmember, Planning Commissioner, City Manager, City Attorney, and City Treasurer are required to annually file a Form 700 pursuant to Government Code §87200 directly with the FPPC. In addition, local government agencies must adopt a local Conflict of Interest Code (Code). This Code must designate positions that make or participate in the making of decisions which may foreseeably have a material effect on any financial interest. The Code must be reviewed biennially to determine if amendments are required.

The Hughson City Council last amended the Conflict-of-Interest Code on April 11, 2022, with the adoption of Resolution No. 2022-14. Staff recommend performing the biennial review of the City of Hughson's Conflict of Interest Code and reporting that the Conflict-of-Interest Code is in need of amendment. The City Clerk is responsible for ensuring the proper annual filing of the Form 700 by appropriate City officials as required and per the specified deadline.

**Fiscal Impact:**

There is no fiscal impact to the City associated with approval of this item.

**WHEREAS**, pursuant to Government Code Section 87306.5, each local government agency must review its Conflict-of-Interest Code on a biennial basis and either amend the code, or report that the Code is not in need of amendment; and

**WHEREAS**, the City Council desires to amend the Conflict of Interest Code to update Appendix "A" to remove, change, and include the current designated positions; and

**WHEREAS**, the City of Hughson will continue to incorporate by reference Title 2, California Administrative Code Section 18730 and amendments to it, adopted by the Fair Political Practices Commission (FPPC), which will save time and money by minimizing the actions required of the Council to keep its code in conformity with the Reform Act.

## **CITY COUNCIL AGENDA ITEM NO. 3.5**

### **SECTION 3: CONSENT CALENDAR**

**Meeting Date:** April 22, 2024  
**Subject:** Approval to Adopt Resolution No. 2024-13, Supporting the Approval of the Fiscal Year 2024-2025 Community Development Block Grant (CDBG) and Home Investment Partnership Program (HOME) Annual Action Plan (AAP)  
**Presented By:** Carla C. Jauregui, Community Development Director

---

#### **Staff Recommendation:**

Adopt Resolution No. 2024-13, supporting the approval of the Fiscal Year 2024-2025 Community Development Block Grant (CDBG) and Home Investment Partnership Program (HOME) Annual Action Plan (AAP).

#### **Background:**

In 2002, Stanislaus County was designated an Urban County by the Federal Housing and Urban Development Department (HUD) and receives an annual allocation to be shared among Stanislaus County and the cities of Ceres, Hughson, Newman, Oakdale, Patterson, Riverbank and Waterford. With this designation, Stanislaus County qualifies as an “entitlement” jurisdiction which means that the County receives Community Development Block Grant (CDBG) and Home Investment Partnership (HOME) Program funds from HUD without participating in the competitive application process. The County together with these cities form what is known as the Stanislaus County Community Development Block Grant (CDBG) Consortium (hereafter referred to as the Urban County).

#### **Discussion:**

During Fiscal Year 2024-2025, Stanislaus Urban County (hereinafter Urban County) expects to receive 2,543,347 in Community Development Block Grant (CDBG) program funding and \$208,317 in ESG funding. These estimated funding allocations in the Draft AAP are based on Fiscal Year 2023-2024 HUD funding and are only used as projections per HUD guidelines. Additionally, the County’s administration amount includes the cost of a consultant that will prepare the upcoming Fiscal Year 2025-2029 Consolidated Plan (5 Year Plan), Analysis of Impediments to Fair Housing and the Limited English Proficiency Plan (LEP) starting in July 2024.

The CDBG funds and the ESG funds are to be used for the following activities.

- Infrastructure Improvements
- Economic Development Programs
- Affordable Housing
- Fair Housing Services
- Public Services
- Homeless Shelter Services
- Homeless Prevention
- Homeless Services Data Collection

Hughson's estimated CDBG allocation is approximately \$163,003 which includes \$5,000 for administration costs. Staff recommends the use of the funds for the completion of part 2 of the Second Street Infrastructure Improvement Project, which includes curb, gutter, sidewalk, ADA improvements and the environmental work associated with the project. The 2024-2025 2<sup>nd</sup> Street Sidewalk Infill Project will complete the remainder of the sidewalks on 2<sup>nd</sup> Street that were started in the 2017-2018 Fiscal Year and completed in the 2018-2019 Fiscal Year. This project installed curb, gutter and sidewalk, and pedestrian improvements on 2<sup>nd</sup> Street between Fox Road and Walker Lane. The 2024-2025 project goal is to complete the public improvements on 2<sup>nd</sup> Street between Santa Fe and Locust. This project is part of a multi-year effort to complete sidewalks and improve connectivity, mobility, and access for pedestrians.

Additionally, the Urban County is anticipated to receive approximately \$1,708,364 in Home Investment Partnership Program (HOME) funding of which Hughson's allocation for Fiscal Year 2024-2025 is anticipated to be approximately \$127,110. The goals of the Consortium as established under the federal HOME program guidelines is to further affordable housing activities benefiting low-income households.

Community meetings for the purpose of gathering public comments and review of the draft Annual Action Plan were held on March 25, 2024, April 8, 2024, and a third meeting is scheduled at 5pm prior to the City Council meeting on April 22, 2024. The Draft AAP has been available for public review in the Stanislaus County Planning and Community Development Department, and various locations throughout the County. No public comments have been received to date.

#### **Fiscal Impact:**

The City currently has approximately \$620,000 in CDBG funds available as of Fiscal Year 2023-2024 and is estimated to receive an additional estimated \$163,003 in Fiscal Year 2024-2025 to use towards the 2024-2025 2<sup>nd</sup> Street Sidewalk Infill Project. Any remaining funds will be allocated to secondary projects identified as part of the Consolidated Plan. Staff will continue to look for other funding sources to be able to complete the construction of all projects identified to improve safety and the quality of life for the residents of Hughson.

### **SECTION 6: NEW BUSINESS**

**Meeting Date:** April 22, 2024  
**Subject:** Approval to Authorize City Staff to Release Bid Documents for the Well 8 TCP Mitigation Project  
**Enclosures:** Well 8 TCP Mitigation Project Plan Set  
Bid Documents  
**Presented By:** Carla C. Jauregui, Community Development Director

---

#### **Staff Recommendation:**

Authorize City Staff to release Bid Documents for the Well 8 TCP Mitigation Project.

#### **Background:**

In 2017, the State of California Water Board adopted a new standard to the California Code of Regulations for the previously unregulated contaminant 1,2,3-Trichloropropane (1,2,3-TCP). The new standard sets the Maximum Contaminant Level (MCL) for 1,2,3-TCP at 5 parts per trillion (5 ppt) in public drinking water. The contaminant is a man-made chemical commonly found in groundwater throughout the Central Valley from use in industrial and agricultural activities. Testing of local groundwater wells has shown 1,2,3-TCP is present and of sufficient concentrations to require removal. Currently, Wells 3, 4, and 8 have 1,2,3- TCP concentrations exceeding the new MCL.

In 2018, a study titled "City of Hughson 1,2,3-TCP Mitigation Feasibility Study" was completed to provide recommendations to address 1,2,3-TCP in City water wells. The study found that granular activated carbon (GAC) was the best treatment technology for 1,2,3-TCP removal.

#### **Discussion:**

On July 27, 2020, the Council approved the Professional Services Agreement with the engineering firm of Provost & Pritchard to prepare plans and specifications to add 1,2,3-TCP treatment to the City's Well 8 Facility. Since then, the staff has worked with Provost & Pritchard to finalize the design and prepare bid documents for construction.

Additionally, since this project will alter the appearance and footprint of the well site, City staff has conducted a public outreach to City residents located within 300' of the Well 8 facility,

explaining the project work, purpose, and construction timeframe. To date, the City has received no comments or concerns from residents related to this project.

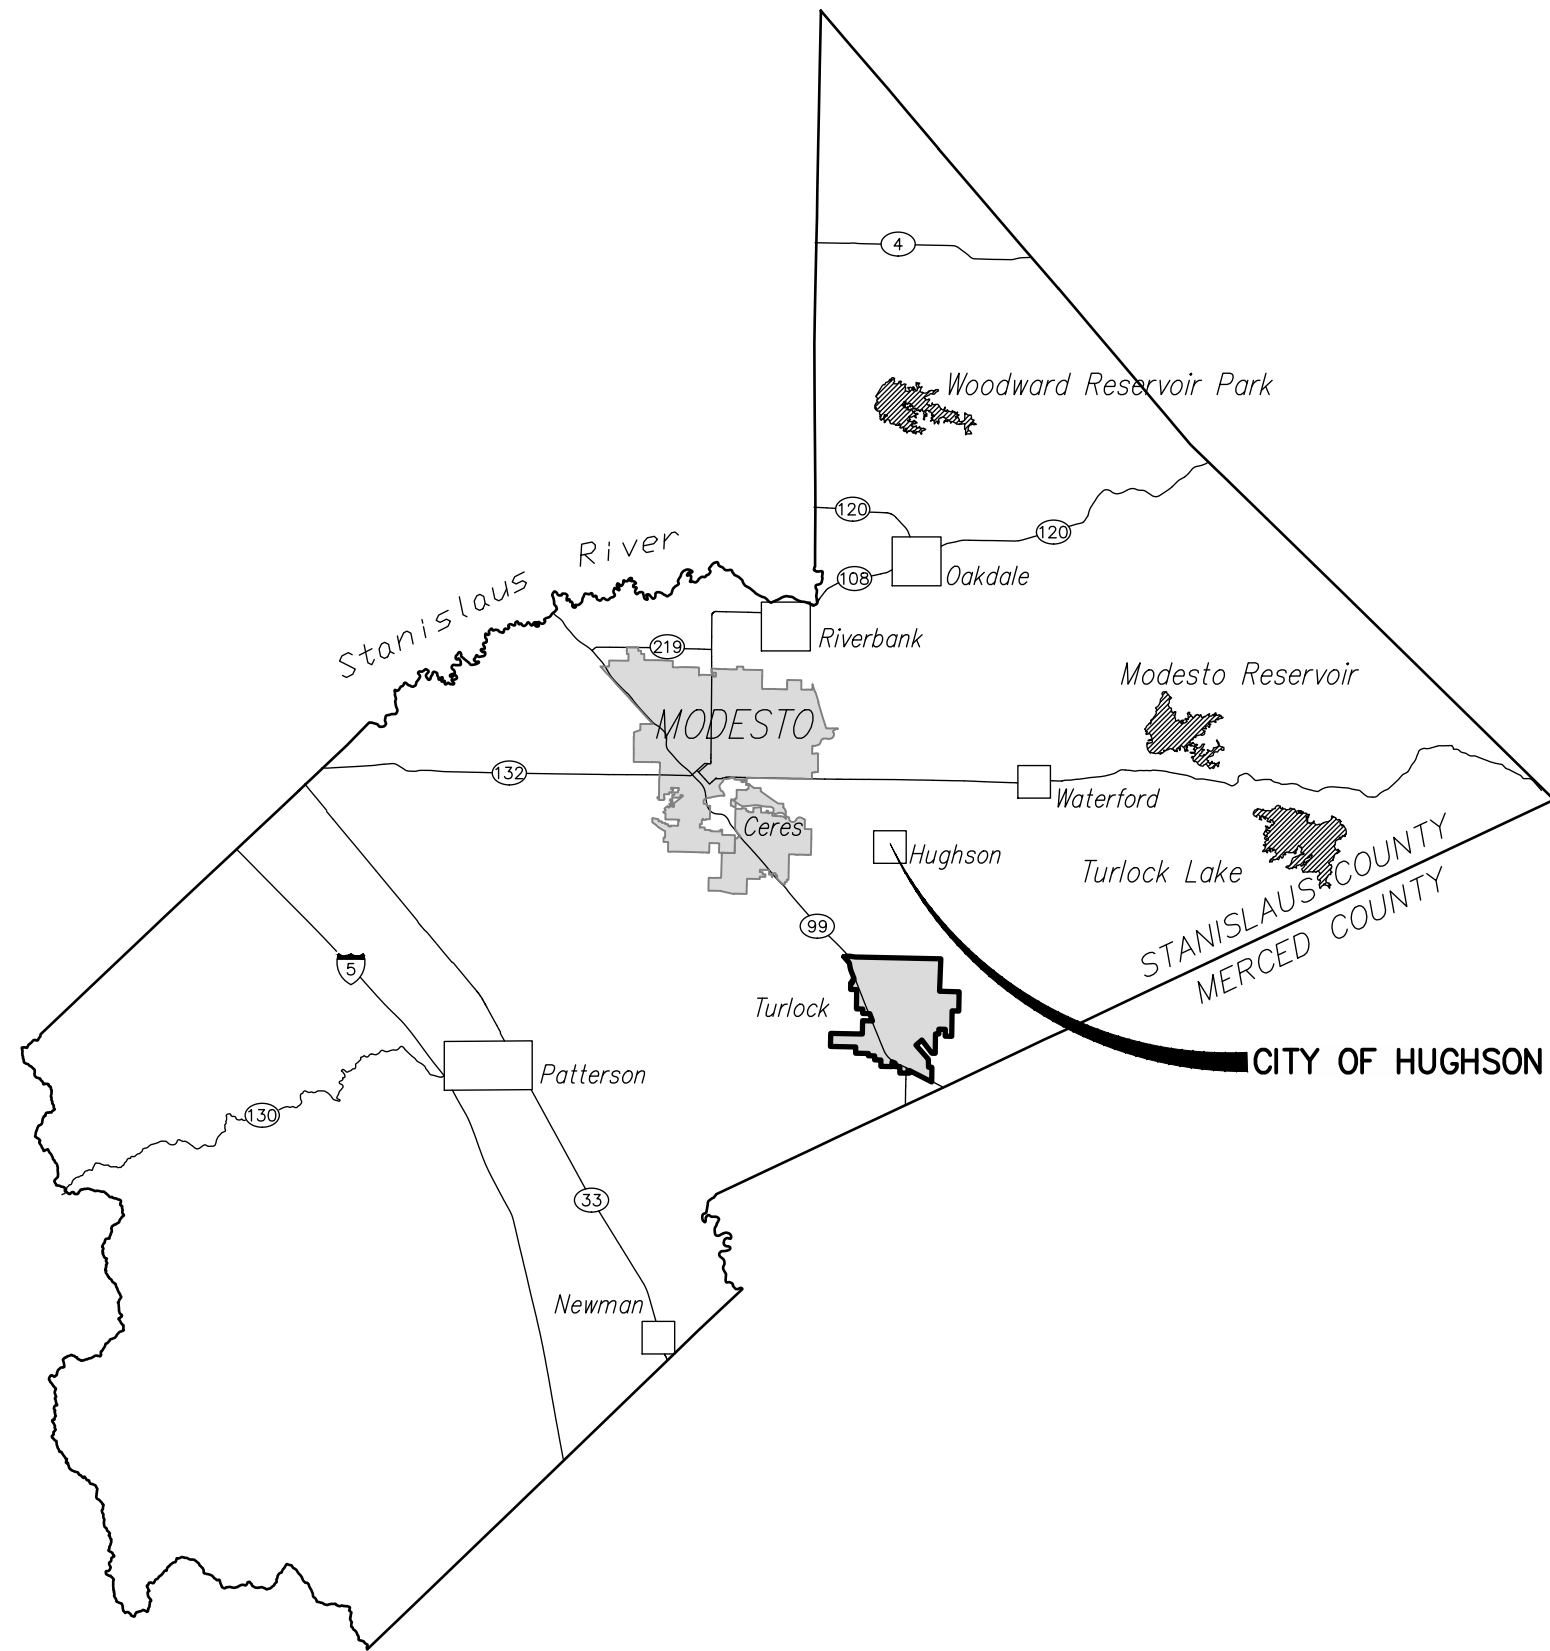

**Fiscal Impact:**

The City received funding for the project through a legal settlement in 2022. The engineer's estimate of probable cost is \$2.45 million, which is less than the available amount received from the settlement.

- WELDS SHALL BE MADE WITH WIRE OR ELECTRODE HAVING A MINIMUM TENSILE STRENGTH OF 70,000 PSI, UNLESS NOTED OTHERWISE.

SPECIAL INSPECTION NOTES

- THE CONTRACTOR SHALL NOTIFY THE [OWNER] 48 HOURS BEFORE PLACEMENT OF REINFORCING STEEL AND CONCRETE SO THAT THE SUBGRADE OF EXCAVATIONS MAY BE INSPECTED BY THE GEOTECHNICAL ENGINEER. THE GEOTECHNICAL ENGINEER SHALL VERIFY BACKFILL MATERIAL, BACKFILLING PROCEDURES AND SOIL COMPACTION TESTS.
- STRUCTURAL OBSERVATION SHALL BE PROVIDED BY THE DESIGN ENGINEER(S) OF RECORD OR THEIR AUTHORIZED REPRESENTATIVES IN ACCORDANCE WITH CBC 2022, SECTION 1704. ALL RISK CATEGORY III AND IV STRUCTURES SHALL HAVE STRUCTURAL OBSERVATION. STRUCTURAL OBSERVATION SHALL CONSIST OF SITE VISITS AT INTERVALS APPROPRIATE TO THE STAGE OF CONSTRUCTION TO OBSERVE CONSTRUCTION IN PROGRESS AND REVIEW OF TESTING AND INSPECTION REPORTS FOR GENERAL COMPLIANCE WITH THE CONSTRUCTION DOCUMENTS RELATING TO THE STRUCTURAL WORK AND THE NONSTRUCTURAL COMPONENTS AND EQUIPMENT ANCHORAGE.
- SPECIAL INSPECTION IN ACCORDANCE WITH CBC 2022 SECTIONS 1704 & 1705, SHALL BE REQUIRED AS INDICATED IN THE SPECIAL INSPECTION AND TESTING SCHEDULE ON THIS SHEET.
- ALL SPECIAL INSPECTIONS REQUIRED MUST BE BY APPROVED INDEPENDENT INSPECTORS WHO SHALL BE RETAINED BY THE OWNER. The work for which this bid is submitted is for construction in conformance with the special provisions (including less than the State general prevailing wage rates or Federal minimum wage rates), the project plans described below, including any addenda thereto, the contract annexed hereto, and in conformance with the California Department of Transportation Standard Plans, dated 2018, the Standard Specifications, dated 2018, and the Labor Surcharge and Equipment Rental Rates in effect on the date the work is accomplished.

The special provisions for the work to be done are dated **TBD**, and are entitled:

Well 8 TCP Mitigation Project

Bids are to be submitted for the entire work. The amount of the bid for comparison purposes will be the total of all items.

The bidder shall set forth for each unit basis item of work a unit price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for that purpose. In the case of unit basis items, the amount set forth under the "Item Total" column shall be the product of the unit price bid and the estimated quantity for the item.

This is not a Federal-Aid project and therefore any Federal-Aid provisions do not apply.

In case of discrepancy between the unit price and the total set forth for a unit basis item, the unit price shall prevail, except as provided in (a) or (b), as follows:

(a) If the amount set forth as a unit price is unreadable or otherwise unclear, or is omitted, or is the same as the amount as the entry in the item total column, then the amount set forth in the item total column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price;

(b) (Decimal Errors) If the product of the entered unit price and the estimated quantity is exactly off by a factor of ten, one hundred, etc., or one-tenth, or one-hundredth, etc. from the entered total, the discrepancy will be resolved by using the entered unit price or item total, whichever most closely approximates percentage-wise the unit price or item total in the *CITY OF HUGHSON* Final Estimate of cost.

If both the unit price and the item total are unreadable or otherwise unclear, or are omitted, the bid may be deemed irregular. Likewise, if the item total for a lump sum item is unreadable or otherwise unclear, or is omitted, the bid may be deemed irregular unless the project being bid has only a single item and a clear, readable total bid been provided.

Symbols such as commas and dollar signs will be ignored and have no mathematical significance in establishing any unit price or item total or lump sums. Written unit prices, item totals and lump sums will be interpreted according to the number of digits and, if applicable, decimal placement. Cents symbols also have no significance in establishing any unit price or item total since all figures are assumed to be expressed in dollars and/or decimal fractions of a dollar. Bids on lump sum items shall be item totals only; if any unit price for a lump sum item is included in a bid and it differs from the item total, the items total shall prevail.

The foregoing provisions for the resolution of specific irregularities cannot be so comprehensive as to cover every omission, inconsistency, error or other irregularity which may occur in a bid. Any situation not specifically provided for will be determined in the discretion of the *CITY OF HUGHSON*, and that discretion will be exercised in the manner deemed by the *CITY OF HUGHSON* to best protect the public interest in the prompt and economical completion of the work. The decision of the *CITY OF HUGHSON* respecting the amount of a bid, or the existence or treatment of an irregularity in a bid, shall be final.

If this bid shall be accepted and the undersigned shall fail to enter into the contract and furnish the 2 bonds in the sums required by the Public Contract Code, with surety satisfactory to the *CITY OF HUGHSON*, within 8 days, not including Saturdays, Sundays and legal holidays, after the bidder has received notice from the *CITY OF HUGHSON* that the contract has been awarded, the *CITY OF HUGHSON* may, at its option, determine that the bidder has abandoned the contract, and thereupon this bid and the acceptance thereof shall be null and void and the forfeiture of the security accompanying this bid shall operate and the same shall be the property of the *CITY OF HUGHSON*.

The undersigned, as bidder, declares that the only persons or parties interested in this bid as principals are those named herein; that this bid is made without collusion with any other person, firm, or corporation; that he has carefully examined the location of the proposed work, the annexed proposed form of contract, and the plans therein referred to; and he proposes, and agrees if this bid is accepted, that he will contract with the *CITY OF HUGHSON*, in the form of the copy of the contract annexed hereto, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the contract, in the manner and time therein prescribed, and according to the requirements of the Engineer as therein set forth, and that he will take in full payment therefor the following prices, to wit:

The City may take any action on the bid protest that is authorized by law, including adoption of City staff's recommended determination of the bid protest, adoption of a determination different from that recommended by City staff, or the rejection of all bids without deciding the bid protest. The decision of the City on a bid protest shall be the final administrative action on the protest and shall exhaust the protesting bidder's administrative remedies.
7. **Exclusive Remedy.** The procedure and time limits set forth in this Bid Protest Procedure are mandatory and are the bidder's sole and exclusive remedy in the event of bid protest. A bidder's failure to comply with these procedures will

constitute a waiver of any right to further pursue a bid protest, including filing a Government Code Claim or initiation of legal proceedings.

submit to the Engineer all proposed Substitutes or "Or Equal" products for the Engineer's review and approval. All such submittals shall be in conformance with the requirements of this Section.

The Contractor hereby agrees that failure to submit alternative product requests within the stipulated time period shall act as a waiver of any future rights to offer such substitutes, and the Contractor hereby agrees to provide one of the specific products called for in the Contract Documents.

## **CONTRACTOR'S SCHEDULE**

Time of Submittals: Within 7 days of the commencement date stated in the Notice to Proceed, the Contractor shall submit for acceptance by the Engineer, a Preliminary Construction Schedule for the Work, showing its general plan for orderly completion of the Work and showing in detail its planned mobilization of equipment, sequence of early operations, and timing of procurement of materials and equipment. The Preliminary Construction Schedule produced and submitted shall indicate a project completion date on or before the contract completion date. The Engineer within 7 days after receipt of the Preliminary Construction Schedule, shall meet with a representative of the Contractor to review the preliminary plan and construction schedule.

Within 7 days after the conclusion of the Engineer's review period, the Contractor shall revise the Preliminary Construction Schedule as required, and resubmit to the Engineer for review. The Preliminary Construction Schedule will be revised and/or approved or rejected by the Engineer within 7 calendar days after receipt. Said schedule, when accepted by the Engineer shall constitute the Initial Construction Schedule until later revised schedules are submitted due to delays beyond the control and without the fault or negligence of the Contractor.

Schedule Updates with Progress Payment Applications: The Contractor shall submit updated construction schedules with each payment application.

Additional Revised Construction Schedules: The Contractor, if requested by the Engineer, shall provide a Revised Construction Schedule if, at any time, the Engineer considers the completion date to be in jeopardy because of any portion of the work falling behind schedule. The form and method employed by the Contractor shall be the same as required for the Initial Construction Schedule.

Construction Schedule Revisions: The Contractor shall modify any portions of the construction schedule that becomes unfeasible because of portions of the Work falling behind schedule, or for any other valid reason. Any portion of the work that cannot be completed by its originally-scheduled completion date shall be deemed to be behind schedule.

## **PROPOSED SUBSTITUTES OR "OR-EQUAL" ITEMS**

For convenience in designation in the Contract Documents, any material, product, or equipment to be incorporated in the Work may be designated under a brand or trade name or the name of a

manufacturer and its catalog information. The use of any substitute material, product, or equipment which is equal in quality and utility and possesses the required characteristics for the purpose intended will be permitted, subject to the following requirements:

1. The burden of proof as to the quality and utility of any such substitute material, product, or equipment shall be upon the Contractor.
2. The Engineer will be the sole judge as to the quality and utility of any such substitute material, product, or equipment and its decision shall be final.

Wherever in the Contract Documents the name or the name and address of a manufacturer or supplier is given for a material, product, or equipment, or if any other source of a material, product, or equipment is indicated therefore, such information is given for the convenience of the Contractor only, and no limit, restriction, or direction is indicated or intended thereby, nor is the accuracy or reliability of such information guaranteed. It shall be the responsibility of the Contractor to determine the accurate identity and location of any such manufacturer, supplier, or other source of any material, product, or equipment called for in the Contract Documents.

The Contractor may offer any material, product, or equipment that it considers equal to those specified. Unless otherwise provided by law or authorized in writing by the Engineer, the substantiation of any proposed substitute or "or equal" material, product, or equipment must be submitted prior to award of the contract. The Contractor, at its sole expense, shall furnish data concerning items it has offered as substitute or "or equal" to those specified. The Contractor shall provide the data required by the Engineer to determine that the quality, strength, physical, chemical, or other characteristics, including durability, finish, efficiency, dimensions, service, and suitability are such that the substitute or "or equal" item will fulfill its intended function.

The Contractor's attention is further directed to the requirement that its failure to submit data substantiating a request for a substitution of an "or equal" item during the time between the opening of bids and the date of award shall be deemed to mean that the Contractor intends to furnish one of the specific brand or trade-named material, product, or equipment specified in the Contract Documents and the Contractor does hereby waive all rights to offer or use substitute materials, products, or equipment in each such case. Wherever a proposed substitute material, product, or equipment has not been submitted within the time specified above, or wherever the submission of a proposed substitute material, product, or equipment fails to meet the requirements of the Specifications and an acceptable resubmittal is not received by the Engineer within said specified time period, the Contractor shall furnish only one of the materials, products, or equipment originally-named in the Contract Documents. Approval by the Engineer of a substitute item proposed by the Contractor shall not relieve Contractor of the responsibility for full compliance with the Contract Documents and for adequacy of the substituted item. The Contractor shall also be responsible for resultant changes and all additional costs which the substitution requires in its work, the work of its subcontractors and of other contractors and shall effect such changes without cost to City.

## **RECORD DRAWINGS**

General: The Contractor shall keep and maintain, at the job site, one record set of Contract Drawings. On these Contract Drawings, Contractor shall mark all project conditions, locations,

configurations, and any other changes or deviations which may vary from the details represented on the original Contract Drawings, including buried or concealed construction and utility features which are revealed during the course of construction.

Special attention shall be given to recording the horizontal and vertical location of all buried utilities that differ from the locations indicated, or which were not indicated on the Contract Drawings. Said Record Drawings shall be supplemented by any detailed sketches as necessary or directed to fully indicate the Work as actually constructed.

These master Record Drawings of the Contractor's representation of "as-built" conditions, including all revisions made necessary by addenda, change orders, and the like, shall be maintained up-to-date during the progress of the Work.

In the case of those drawings which depict the detail requirement for equipment to be assembled and wired in the factory, the record drawings shall be updated by indicating those portions which are superseded by change order drawings or final shop drawings, and by including appropriate reference information describing the change orders by number and the shop drawings by manufacturer, drawing, and revision numbers.

Record Drawings prepared by the Contractor shall be accessible to the Engineer at all times during the construction period and shall be delivered to the Engineer upon completion of the work.

Effect on Progress Payments: Requests for partial payments will not be approved if the record drawings are not kept current. All such Record Drawings will be inspected by the Engineer each month, showing all variations between the Work as actually constructed and as originally shown on the Contract Drawings or other Contract Documents, and the City will not process monthly payment requests until such drawings are made current each month.

Final Record Drawings: Upon substantial completion of the Work and prior to final acceptance by the City, the Contractor shall complete and deliver the completed set of Record Drawings to the Engineer for transmittal to the City, conforming to the construction records of the Contractor. This set of drawings shall consist of corrected plans showing the reported location of the Work. The information submitted by the Contractor and incorporated by the Engineer into the Record Drawings will be assumed to be reliable, and the Engineer will not be responsible for the accuracy of such information, or for any errors or omissions, which may appear on the Record Drawings as a result.

Effect on Final Payment: Final payment will not be approved until the Contractor-prepared Final Record Drawings have been delivered to the Engineer. Said up-to-date, Record Drawings may be in the form of a set of prints with carefully plotted information overlaid in pencil.

Full compensation for Contractor Submittals shall be considered as included in the prices paid for the various items of work and no separate payment will be made therefore.

#### **10-1.06 MATERIALS AND EQUIPMENT**

The word "Products," as used herein, is defined to include purchased items for incorporation into the Work, regardless of whether specifically purchased for project or taken from Contractor's stock

of previously purchased products. The word "Materials," is defined as products which must be substantially cut, shaped, worked, mixed, finished, refined, or otherwise fabricated, processed, installed, or applied to form units of work. The word "Equipment" is defined as products with operational parts, regardless of whether motorized or manually operated, and particularly including products with service connections (wiring, piping, etc.). Definitions in this paragraph are not intended to negate the meaning of other terms used in Contract Documents, including "specialties," "systems," "structure," "finishes," "accessories," "furnishings," "special construction," and similar terms, which are self-explanatory and have recognized meanings in the construction industry.

Source Limitations: To the greatest extent possible for each unit of work, the Contractor shall provide products, materials, or equipment of a singular generic kind from a single source.

Compatibility of Options: Where more than one choice is available as options for Contractor's selection of a product, material, or equipment, the Contractor shall select an option which is compatible with other products, materials, or equipment already selected. Compatibility is a basic general requirement of product/material selections.

All equipment designated to be installed in the Work, whether temporarily stored at the site or installed in place, shall be serviced on a regularly scheduled basis, and a written log of services shall be maintained and submitted as a record document to the Engineer.

Full compensation for Materials and Equipment shall be considered as included in the prices paid for the various items of work and no separate payment will be made therefore.

#### **10-1.07 DELIVERY, STORAGE, AND HANDLING**

The Contractor shall confine all operations (including storage of materials) on City premises to areas authorized or approved by the City. The Contractor shall hold and save the City, its officers and agents, free and harmless from liability of any nature occasioned by the Contractor's performance.

Temporary buildings (e.g., storage sheds, shops, offices) and utilities may be erected by the Contractor only with the approval of the City and shall be built with labor and materials furnished by the Contractor without expense to the City. The temporary buildings and utilities shall remain the property of the Contractor and shall be removed by the Contractor at its expense upon completion of the Work. With the written consent of the Engineer, the buildings and utilities may be abandoned and need not be removed.

The Contractor shall make its own arrangements for any necessary off-site storage or shop areas necessary for the proper execution of the Work.

The Contractor shall deliver, handle, and store products in accordance with manufacturer's written recommendations and by methods and means that will prevent damage, deterioration, and loss including theft. Delivery schedules shall be controlled to minimize long-term storage of products at site and overcrowding of construction spaces. In particular, the Contractor shall provide delivery/installation coordination to ensure minimum holding or storage times for products recognized to be flammable, hazardous, easily damaged, or sensitive to deterioration, theft, and other sources of loss.

Products shall be transported by methods to avoid product damage and shall be delivered in undamaged condition in manufacturer's dry, unopened containers or packaging.

The Contractor shall provide equipment and personnel to handle products, materials, and equipment including those provided by City by methods to prevent soiling and damage.

The Contractor shall provide additional protection during handling to prevent marring and otherwise damaging products, packaging, and surrounding surfaces.

Products shall be stored in accordance with manufacturer's written instructions, with seals and labels intact and legible.
