“Get to know your HOUSE”

Do you know how to shut off your Utilities in an Emergency?

It's a good idea for all responsible household members to be familiar with where shut-off valve's are located in your home.

Water: Every home has a shut-off valve. To shut off turn valve clockwise until firm. Check to see if water has stopped running (your front house tap is the best way to check).

There is also a valve in the back of the toilet that can be turned off

Don't forget to pay your Utility Bill by the last business day of the month to avoid a 10% penalty.
