Your energy efficient future, today.

On October 13th, the Hughson City Council approved the California HERO or Home Energy Renovation Opportunity program, which enables

residential and commercial property owners in participating municipalities the opportunity to install energy & water efficient improvements by having a special assessment placed on their property tax bill with payment made over time. The program is completely free to the City & prospective property owners and is 100% voluntary. The program is not up and running yet, but will be soon. We will keep you posted with a formal program launch! For more information, please contact City Hall at 883-4054
