

# CITY OF HUGHSON

## 2017 VISIONING PROCESS

---

While updating the City's goals and objectives—adopted in 2005—the City thought it was time to re-assess the City's overall vision for the future. The subsequent City Visioning process began with a public workshop on July 29, 2017. Staff collected input gathered from the many council members, business and organization leaders and residents at the workshop and then created several vision statement options. Ultimately, the City Council, desiring to involve the residents, directed staff to share the preferred statements (below) to solicit feedback from the residents. Please share your thoughts on the drafted Vision and Mission statements by Tuesday, September 15, 2017. Thank you!

## VISION STATEMENT

---

To preserve Hughson's unique spirit, heritage and character, while creating an undeniably great place to thrive.

## MISSION STATEMENT

---

Hughson will above all be fiscally responsible. Hughson will: be responsive, honest, transparent and informative; collaborate with agency partners, organizations, businesses and residents; maximize the efficiency and effectiveness in providing services.
