Regulations for Fireworks Sales in Stanislaus County

Sales

- It shall be unlawful to engage in the sale of "Safe and Sane" fireworks in Stanislaus County without first having secured a permit to do so from the fire agency having jurisdiction over the sale of fireworks at the sales location.
- Permits will only be issued in jurisdictions that have approved the sale of fireworks by resolution.
- Permits for sales of "safe and sane" fireworks are not transferable by the holder of the permit. A sales permit may be used only by the organization to which it is issued.
- Paperwork shall be processed through your Fireworks Company and returned to Stanislaus County Fire Prevention Bureau Headquarters up to **May 1 at 3:00 p.m.**
- Notify Stanislaus County Fire Prevention Bureau to schedule your opening date and time and an inspection will be scheduled. You may NOT open before inspection is completed.
- Permits shall state the location of the fireworks stand.
- Application fee: \$73.00, non-refundable.
- Fireworks may only be sold or offered for sale between June 28th and July 6th (CCR T-19 § 981.3 (c)).
- Hours of operation as follow: June 28th from noon – 10:00 pm; June 29th - July 5th from 9:00 am – 10:00 pm; July 6th from 9:00 am – noon.
- **Operator safety.** Each year, one (1) or more representatives from each organization that is granted a permit to sell fireworks shall attend a stand operator safety seminar conducted by the Fire Department and the fireworks industry. **Failure to attend the seminar shall result in the revocation of the organization's permit and license to sell fireworks for that calendar year.** Licensee will be notified at time of application with dates and time of seminar.

Storage of Fireworks

Permitted locations may store "Safe and Sane" fireworks during the period of **June 22nd - July 15th**. "Safe and Sane" fireworks that are not being sold or displayed with the intent to sell shall be stored in the following manner.

- Within the permitted fireworks stand with a responsible adult on the premises at all times.
- In a completely enclosed and locked utility type trailer constructed of one-fourth (1/4) inch plywood or an approved noncombustible material.
- In a completely detached garage on a residential property **with a minimum of ten (10) feet clearance from other structures or property lines.** There shall be no open-flame or spark producing equipment, or Class I flammable liquids stored or used in the garage.
- Fireworks shall not be stored within forty (40) feet of any building classified or used as a public or private school, day care facility, public garage, or any place of public assembly that can accommodate fifty (50) or more persons.

MUST BE POSTED IN A CONSPICUOUS PLACE ON PREMISES WHERE FIREWORKS ARE SOLD.

Fireworks Stands

- The fire department permit, state license and fire code regulations for fireworks sales shall be displayed in the fireworks stand during hours of operation.
- **The fireworks stand shall be located at least twenty (20) feet from other structures.**
- Fireworks shall not be stored, sold, offered for sale or discharged within one hundred (100) feet of a location where gasoline, LPG, or other Class I flammable liquids or flammable gases are stored or dispensed.
- All unsold stock and accompanying litter shall be removed from the location by 5:00 pm July 6th.
- The fireworks stand, and all accompanying litter shall be removed from the temporary location by 12:00 noon on July 12th.
- A penalty of one hundred dollars (\$100.00) per day will be assessed to the permittee of any fireworks stand not removed by 12:00 noon on the 12th day of July.

Safety Precautions

- No person under the age of eighteen (18) shall sell, or handle for sale, any classification of fireworks or be permitted in the sales booth during the sales period.
- No person under the age of eighteen (18) shall purchase or be allowed to purchase any classification of fireworks.
- No heat producing devices including electrically operated or portable fuel burning equipment or appliances shall be permitted in the booth. Smoking, open-flame, heat and spark-producing equipment shall be prohibited for a distance of twenty (20) feet around any fireworks stand.
- **All electrical wiring including extension cords and lights must be listed by Underwriters Laboratory (UL), for outside use. Proof of listing such as "UL" tags or labels must be maintained on the electrical equipment at all times.**
- Electrical generators must be kept at least twenty (20) feet away from the fireworks booth. No "hot" refueling shall be allowed. The generator must be turned off and allowed to cool prior to refueling. A fire extinguisher with a minimum 2A10BC rating shall be located within ten (10) feet of the generator during refueling.
- Gasoline for on-site generators must be stored at least one hundred (100) feet away from the fireworks booth and/or any area where fireworks are stored. Gasoline for the on-site generator may only be stored in California State Fire Marshall approved containers. A maximum of five (5) gallons of gasoline may be stored on-site. A fire extinguisher with a minimum UL classification of 2A10BC shall be located within seventy-five (75) feet walking distance of any gasoline storage.
- Fireworks shall not be discharged within fifty (50) feet of a fireworks stand.
- Fireworks shall, at all times, be adequately protected against moisture damage while inside of original shipping cartons and after removal from the original shipping cartons.

**MUST BE POSTED IN A CONSPICUOUS PLACE ON
PREMISES WHERE FIREWORKS ARE SOLD.**

Stand Construction

- Walls of roof shall be of plywood at least one-fourth (1/4) inches thick or of an approved noncombustible material.
- The stand shall be provided with a roof. Approved weather resistant material, securely fastened to the roof, at all edges and at four (4) feet intervals, may be used for rain protection.
- Walls shall extend to a minimum height of six (6) feet eight (8) inches, on at least three (3) sides. These three (3) sides shall be without openings, except for an exit door.
- An exit door with a minimum size of twenty-four (24) inches in width and six (6) feet in height shall be provided in each stand. Exits shall be maintained clear and unobstructed at all times.
- The front wall of the stand shall provide a physical barrier not less than eighteen (18) inches in height between the public and the merchandise on display.
- Approved "NO SMOKING" signs shall be prominently displayed in and on the stand.
- Approved "NO SALES TO PERSONS UNDER THE AGE OF 18" signs shall be prominently displayed in the stand.
- An approved fire extinguisher having a minimum UL classification of 2A10BC shall be located in the stand. Fire extinguishers must be placed so that they are readily accessible to the occupants of the stand.
- All required fire extinguishers must have tags showing service by a California State Fire Marshal authorized firm within the last 12 months or a current sales receipt purchased within the last 12 months.
- Sellers of fireworks shall comply with all rules and regulations of Title 19 of the California Code of Regulations and with the rules and regulations of the Chief.
- Additionally, Sellers of fireworks shall comply with all rules and regulations of Title 9.84 of the Stanislaus County Ordinance and with the rules and regulations of the Chief.

Revocation of Permit and Seizure of Fireworks

- The Fire Chief, or his/her designee, may revoke, immediately and without notice or hearing, the "Safe and Sane" fireworks sales permit of any location or organization when any of the provisions of these regulations, the County Fire Code, or state law or regulation are violated. The decision to revoke a firework permit by the Fire Chief or his/her designee shall be final.
- The fire department is authorized to seize, take, remove or cause to be removed at the expense of the owner all stock of fireworks offered or exposed for sale, stored or held in violation for return to the permittee upon proof of compliance with these regulations and, in all cases, can be returned to the permittee's distributor.

**MUST BE POSTED IN A CONSPICUOUS PLACE ON
PREMISES WHERE FIREWORKS ARE SOLD.**

Insurance

- The permittee shall furnish a certificate of insurance for each permit requested. The policy shall contain a provision that holds Stanislaus County and the Stanislaus County Fire Prevention Bureau responsible for issuing the permit as additional insured's. The policy shall declare that this insurance is primary, and that no other insurance carried by an insured party shall be called upon for contribution.
- The permittee/licensee shall carry general liability insurance with a minimum limit of liability per occurrence of one million dollars (\$1,000,000.00) for bodily injury and one hundred thousand dollars (\$100,000.00) combined single limit. The certificate of insurance shall include the following coverage: Premises and operations, broad form contractual, products and completed operations.
- The permittee/licensee shall agree to hold the Stanislaus County and the Stanislaus County Fire Prevention Bureau, their agents, officers, and all employees, harmless from and save, defend, and indemnify them against any and all claims, losses, wrongful death, with the indemnity to include reasonable attorney fees and all costs and expenses arising directly or indirectly out of any act or omission of permittee arising out of any activity authorized by the permit.
- The permittee/licensee shall provide at its own expense and maintain at all times the specified insurance policies with insurance companies approved by the State of California.
- Notwithstanding any other provision of these regulations, the failure of the permittee to carry the required insurance during the time covered by such permit shall automatically revoke the permit as of the date of expiration of such insurance policy or policies. A payment of sixty-six dollars (\$66.00) shall be made to the Stanislaus County Fire Prevention Bureau before any such revoked permit may be reinstated.
